Wings to grow up

Wings to leave the nest... Wings to think out of the box!

Cultures

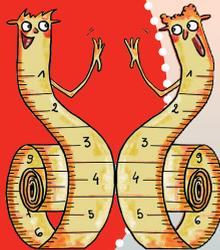

We all grow up with the help of the world around us. Children live with different cultures that enrich them. By taking the needs of everyone into account, they create a new world, one where it's nice to live in.

Friendship

Friendship is a great adventure: it is not always easy but it helps to grow up.

1

My secret garden

To grow up in harmony with others, the child needs to feel good about himself. In his secret garden, he gets stronger, he imagines, he gets to know who he is and creates a positive image of himself.

5

Everyone creative

Being creative is looking out for solutions. The child solves challenges with flying colours thanks to his ideas. Let these new ideas blossom!

4

My super powers

Part of growing up is being confronted with easy and difficult situations. We all have super powers, talents to help us through.
